

BIG SQUARE PUZZLE

(aka “Tarsia” Puzzle)

Big Square Puzzles are located in the Reproducible sections for some *MathLinks* Student Packets and also in some Packet Resource sections (Essential Skills and Nonroutine Problems). Three examples are given in this file to help students get used to the routine (two non-mathematical). A template follows for making up puzzles of your own.

Why: Big Square Puzzles engage students as they practice skills. Students can talk about strategies and solutions in a safe environment while solving the puzzle.

Prepare ahead:

- Reproduce a Big Square Puzzle – cut up one puzzle per pair or small group.
- Or ask students who arrive early to class or finish work early to cut up puzzle pieces and paperclip them together so they will be ready for use. The intact Reproducible page acts as an answer key.

Launch the activity: Use the Big Square Puzzles to establish routines and practice skills from prior grades. To solve a puzzle, ask students to divide up all pieces among their groups. Of the given examples, the first matches pairs of famous cartoon characters from the same movie/show/comic. For the next two, states and their capitals are matched. For the final two, students look for equivalent numerical expressions to match. In many puzzles, students will find that there may be more than one match, but there is only one way to complete each of these puzzles. While students are solving the puzzle, circulate and give each group a glue stick or a strip of tape to use to tape pieces together upon completion.

Note that a few packets have these puzzles in triangle form (Big Triangle Puzzles), but the activities work the same.

Accountability/Follow-up Ideas:

- Ask students to show a completed puzzle as an “exit slip.”
- Ask them to tape a completed puzzle together. Use puzzles as room displays.
- Give extra credit to groups that complete a puzzle correctly.
- Ask students to create their own puzzles for others to assemble using a paper template or online software. One possibility is: https://download.cnet.com/Formulator-Tarsia/3000-2051_4-10584458.html

BIG SQUARE PUZZLE: STATES AND CAPITALS 1

Olympia	California Sacramento	Florida Tallahassee	Illinois Springfield
Washington Pierre	Delaware Dover	Maine Augusta	Georgia Atlanta
South Dakota Salem	Trenton New Jersey	Montana Helena	Mississippi Jackson
Oregon Salem	Columbus Ohio	New Mexico Santa Fe	Nebraska Lincoln

BIG SQUARE PUZZLE: STATES AND CAPITALS 2

Oregon Austin	Alabama Montgomery Utah	Arizona Phoenix Utah Baton Rouge	Louisiana Baton Rouge Indiana Providence Louisville
Texas Portland Raleigh	New Hampshire Concord Virginia Salt Lake City	North Dakota Bismarck Kentucky Little Rock	South Carolina Columbia Rhode Island Providence Indiana Indianapolis
North Carolina New Orleans Albany	Pennsylvania Harrisburg West Virginia Richmond	Vermont Montpelier Madison Arkansas	Tennessee Nashville Las Vegas Frankfort Massachusetts
New York New York City Minneapolis	California Sacramento Annapolis Charleston	Nevada Carson City Maryland Wisconsin	Minnesota St. Paul Baltimore Boston Birmingham
