

# MathLinks

GRADE 6

## PROGRAM INFORMATION

• The Writing Team .....	iii
• About the Center for Mathematics and Teaching, Inc. ....	1
• Unit Overviews .....	2
• Program Components .....	4
• Planning Tips .....	9
• Materials, Copy Lists, and Shopping Lists .....	12
• Focus, Coherence, and Rigor .....	16
• Universal Design for Learning .....	22
• Features to Engage Students .....	29
• Assessment Options .....	36
• Correlations of <i>MathLinks</i> : Grade 6 .....	43
• Indexes .....	52

## THE WRITING TEAM

### Lead Authors

**Mark Goldstein** was a middle school mathematics teacher in Santa Monica, California for 12 years. He worked at the UCLA Graduate School of Education and Information Studies and the Department of Mathematics from 2001-2010. During that time he taught preservice and inservice courses, wrote curricular materials, and supported teachers in the classroom through professional development and coaching. Mark is a lead author of *Introduction to Algebra* and all programs in the *MathLinks* series. Mark is currently one of CMAT's primary professional development leaders. He received a BS in Mathematics/Applied Economics at UCLA and an MA in Mathematics Education from California State University, Dominguez Hills.

**Shelley Kriegler** was Director of the UCLA Math Content Programs for Teachers from 1999-2010, where she led efforts to create and implement mathematics authorization programs to increase the mathematics content knowledge for more than 10,000 teachers in California. She is a lead author of *Introduction to Algebra* and all programs in the *MathLinks* series. Shelley taught mathematics from grades 4-12 for 19 years prior to working at UCLA. She also served as a consultant for Creative Publications for five years. Shelley earned a BA in Mathematics and an Ed.D. in Teaching Studies at UCLA.

**Jennifer Moffett** began her career in education as a middle school mathematics teacher in Yucaipa, CA. She went on to serve as a district math coach and later as a Curriculum Specialist at the County level. She has provided professional development to teachers and parents on various mathematical-related ideas and concepts. Jen currently consults with many districts working with teachers to scaffold instruction to support students with grade-level mathematics content. Jen also contributes to the Center of Mathematics and Teaching (CMAT) as a lead author for the *MathLinks* series.

**Ted Gamelin**, professor emeritus in the UCLA Department of Mathematics, enjoyed a distinguished career as a research mathematician for over 40 years. He became involved in mathematics education in 1999 and served as a faculty advisor to the California Mathematics Project and the UCLA Math Content Programs for Teachers. CMAT's mission to create first-class, high-quality mathematics materials for students is rooted in Ted's tenacity as an advisor to MCPT and CMAT. Ted is a lead author of *Introduction to Algebra* and all programs in the *MathLinks* series. He earned his BS from Yale University and Ph.D. in Mathematics from UC Berkeley.

## **THE WRITING TEAM**

### **Lead Authors**

Mark Goldstein

Shelley Kriegler

Jennifer Moffett

Ted Gamelin

### **Contributing Authors**

Silvia Llamas-Flores

Stacey Olson

Cynthia Raff

### **Mathematicians**

Ted Gamelin, PhD  
Professor Emeritus, University of California, Los Angeles

Madeleine Jetter, PhD  
California State University, San Bernardino

### **Production Leads**

Cary Matthews  
Theresa Lee

Acknowledgements to:

Carole Greenes and Tanner Wolfram for puzzles and games

Shana Savitz for translations

Olivia Raff for graphics

EDUCLIPS for the “*MathLinks* Class” clip art

Allie Raff, Lydia Winkeller, and Shreya Kuthiala for editing assistance

Mike Akhlaghi, Print Moose, Sylmar, CA for publication

Our families, who provide encouragement and support
